◆**Modify the WiFi Settings on TFT-LCD**

Set the MKS_config.txt file

1 **Open the config file(mks_config.txt)**

2 **Find out WiFi function lines and modify as below**

```
#---------------------------------------------------------------
############## WIFI Function ##############################
#wifi type(MKS HLK_WIFI:1; MKS TFT_WIFI:0)
>cfg_wifi_type:0

#wifi mode(AP:1; STA:0)
>cfg_wifi_mode:0          ← Modify to 0

#wifi name and password
>cfg_wifi_ap_name:ZONESTAR      ← SSID of your WiFi
>cfg_wifi_key_code:zonestar123  ← Password of your WiFi
```

3 **Copy file to the root directory of SD card and insert to the TFT-LCD and reset**

RESET

4 **Check if WiFi connected successfully in "Setting>>WiFi"**

◆Install APP to mobile

5 **Connect to WiFi**

6 **Install APP to mobile**

7 **Login in**

Ensure it is the same WiFi

Scan this QRcode to install

◆Operate the 3d printer from mobile

8 **Find out the 3D printer**

9 **Fill WiFi information**

10 **Control your printer**

The same with step 4
